TEAM FOCUS

Harlequins Hotline 09068 664414 (calls charged at premium rate)

Gloucester Rugby Football Club was founded in 1873 and soon became one of the powerhouses of English rugby. For the first 18 years, Gloucester played on The Spa cricket ground, but were evicted in early 1891 after putting salt on the frozen ground to enable a match to go ahead – the salt seriously damaged the grass, which did not please the cricket club. A few years earlier, thousands of spectators caused considerable damage when Gloucester played its first-ever evening match under floodlights.

In 1891 the club moved into its "new" ground, Kingsholm. And since moving, Gloucester has built-up over the past 90 seasons (the club closed down during the two World Wars) a record that is the envy of sports clubs all over the world.

Gloucester's home record since 1891 shows an astonishing overall winning record of 77.31

percent, making Kingsholm one of the toughest sports grounds in the world for a visiting team to claim a win. In terms of scoring, Gloucester have posted nearly 40,000 points, with opponents scoring a mere 17,000 points.

Only once in history has Gloucester had a losing season at Kingsholm. In 1895/96, Gloucester only won six of the seventeen matches played a Kingsholm. Seven were lost and six were drawn to give a 47.06 percent winning record.

Gloucester were the first winners of the Tetley's Bitter Cup, England's premier knockout competition. But in the Allied Dunbar Premiership, a title has been elusive. The Cheltenham & Gloucester Cup was won by Gloucester in its inaugural season, as was the short-lived Worthington Tens competition. Gloucester retained the Cheltenham & Gloucester Cup in its second and last season.
