## RUGBY PROGRAMME BADLY HIT – SOCCER GOES ON

Sport, which has taken severe punishment from the weather this season, was again badly hit today as a result of the snow and frost which is again affecting most of the country.

Rugby, as always, was worst affected. Gloucester's match at Swansea, where today there was five inches of snow on the ground, was one of the casualties.

At Stroud it was decided this morning to cancel the home game with Saracens, and Lydney's fixture with UCS Old Boys was also scratched.

Here, however, the decision was taken by the London team who decided it would be safer not to travel in view of conditions.

One of the few rugger matches in the area was at Kingsholm where Gloucester United entertained Cheltenham United.
