GLO'STER MATCH OFF

Gloucester Rugby Club's match with Cardiff at Kingsholm has been cancelled.

Last night's frost froze the remaining snow on the ground so hard that after an inspection this morning it was decided that it would be dangerous to play.

The weather forecast held out little hope that there would be a thaw of any consequence during the day.

Yesterday afternoon, following a considerable thaw, it had seemed so certain that the game would be on that many Cardiff supporters this morning made the journey to Gloucester.

It is the fourth fixture which Gloucester have been deprived of this season because of snow or frost.

Last week the Red and Whites' away game with Swansea also had to be cancelled.
