## FOOTBALL

### TOMORROW'S MATCHES

The frost has been so severe during the past four days that the prospects of any local football to-morrow are very remote.

In consequence we are not publishing the usual teams' lists to-day.

### GLOUCESTER v. SWANSEA

The Gloucester Committee intend waiting till the last possible moment before coming to a definite decision as regards to-morrow's match at Kingsholm. At the time of writing, the ground was unfit, and unless there was a remarkable change football was absolutely impossible.

In the event of the match being cancelled, it is to be hoped the Swansea Club will be persuaded to give the City another date.

"Whacker" Smith is lying seriously ill with an attack of influenza, and in any case would not be able to play to-morrow.
