CAINSCROSS ROAD**

STROUD

TELEPHONE: STROUD (0453) 763229

Robert Timms MOT Centre is the product of over 14 years hard work put in by Bob Timms and his son Jeremy in establishing a thriving business known for first rate service, MOT testing and repairs firstly at Middle Street Garage and more recently in their spacious premises with its main road frontage onto the Cainscross Road.

Bob Timms comes from a farming background and is Gloucestershire born and bred. For many years Bob and his brother ran a transport firm and during this period Bob proved his worth on the rugby field, first playing club rugby with Old Cryptans, our old friends from Gloucester. His prowess on (and off) the field soon showed and he was to leave and join Gloucester RFC where he played for some 8 years. During this time he played for Gloucestershire when the County side was a feared force throughout the country and not deprived of many better players as now. Bob, as could be expected, is a great supporter of County Rugby and an avid advocate for a strong County Championship. Having played rugby at a high level, Bob returned to the Old Cryptians Club to give them the best of his experience and knowledge. His involvement with club rugby however, had to take second place when he started his own business at Middle Street, but he still supports rugby football whenever he can, hence his firm's support of Stroud RFC today.

Bob Timms business revolves not only around MOT tests and repairs, he also is a service agent for Yugo cars as well as any other make you wish to mention. His son Alastair runs Middleton Autopanel's supplying body panels to the trade and retail in Stroud and Gloucester. Bob has acquired the Elf filling station next door to his premises on Cainscross Road. His daughter Michelle manages the filling station, which has a shop where a wide range of sweets, drinks and groceries - even a last minute present for the wife's birthday - can be obtained between 7.00 am and 11.00 pm.
