Making your own rugby pitch

A rugby pitch must be a certain size, but different rugby pitches are different sizes. This is because there are guidelines to follow and pitches can be within certain measurements. Look at the diagram below and familiarise yourself with the markings on a rugby pitch. Once you have done this, go outside and mark out your own rugby pitch using cones as the lines. Perhaps you could colour code different lines.

- Goal line
- In-goal
- 22 meter line
- 10 meter line
- Half-way line
- 10 meter line
- 22 meter line
- 5 meter line
- Touch line
- Perimeter area
- Dead-ball line
- 15 meter indicated
- Pitch not more than 100 meters
- Pitch not more than 70 meters
