* Internationals

ALTHOUGH the final England Trial is being played at Twickenham to-day it does not affect the power of Gloucester our visitors at the Athletic Ground. In spite of a wonderful season during which they have so far won fourteen matches, and drawn one, out of 20 played, they have not a single representative in the Trial at Twickenham to-day. This can only mean that they are a team and play as a team.

By contrast Richmond have two, P. H. Ryan and M. P. Weston in the Trial and what is of equal interest on this ground is that three London Scottish members have been picked for the first international of the season on January 9 at Murrayfield between Scotland and France. They are the club captain I. H. P. Laughland, at centre, with N. S. Bruce and K. R. S. Bearne in the pack.

The last two joined London Scottish only this season after playing previously for Blackheath. Bearne has played against Oxford for Cambridge three seasons, and Bruce already has nine Scottish caps.

We also congratulate J. J. McPartlin who, although not a member of the home club, is a London Scot, and

so has our complete support. Laughland and Bruce are both playing for London Scottish to-day.

The home side are strengthened by the return of those who played in the trials, and E. H. Cruickshank.

To-day P. A. J. Gardiner, who, like Cruickshank seems able to play anywhere, switches from full back to fly-half.

The Scottish three-quarter line is as distinguished as anyone could wish, with three internationals and a trial cap. Also in the scrum is the redoubtable D. S. Gilbert-Smith.

The Hospital Cup ties begin here on January 7, when King's College meet London.
