NOTES

What a hard weekend it is going to be, what with Gloucester today, and Wasps tomorrow in the Cup Final there are going to be a few tired people around.

Both sides today are depleted by the County Championship Final – obviously Gloucester are more so than we, but we are still five short of our normal side.

Gloucester had a rough patch for them just after Christmas, but they seem to have sorted themselves out and are back to their winning ways. I must admit looking at their pack they don't seem to be minus very few people. There are not many clubs who can afford to play the county second row in the second team. Last year down at Kingsholm we scored 3 tries but Peter Butler got 5 penalties so we lost, luckily he isn't playing today.

Welcome Clint McGregor and Gordon Morris to the side, if they play as well as when we beat Cardiff then we will be happy. Chris Hanson and David Croydon come into the centre and Peter Hawkins at full back.

It was a great win at Bedford last week – it will be pleasant if we can repeat our win over Coventry. Which will give us an outside chance of winning the Daily Telegraph Merit Table.

Our first seven a side tournament was a great success with Mill Hill being worthy winners. The way the whole operation ran so smoothly must reflect on Wendy Stanbrook and her team.

On to our encounter tomorrow. After all the bad reports of the dirty play in the national knockout quarter-finals some people must view our game with Wasps with some trepidation, even without the incentive of the cup our encounters are not known for their politeness.
