Replacements—

Referee : Alun Richards, Caldicot

Supporters' Club Notes

The flags at Aberavon have been at half-mast in the last four or five days since the Cup defeat by Maesteg last Saturday. A double blow with the ground record also being surrendered. However, Phoenix rose from the ashes and the Wizards are capable of rising to the heights once again.

This evening we welcome Gloucester for the first of our two games this season. Several of the chosen Gloucester team represented the Gloucestershire County XV in the play-off match against Oxford on Saturday, which they won handsomely by 36 points to 10. Included in the backs for tonight's match is the prolific goal-kicker — Peter Butler, who is capable of converting goals from almost anywhere, and Lewis Dick—the Scottish International wing who is no stranger to Welsh rugby, having played several seasons with Swansea.

On Saturday we play Pontypool at home, kick-off at 3 p.m. The "Poolers" have been going great guns this season and will no doubt have their usual enthusiastic supporters present at the Talbot Athletic Ground.

Let's forget the result last Saturday and get on with playing rugby at its best — support the boys on the field!
