## Club Notes

### TODAY'S VISITORS

It is with particular pleasure that we welcome Gloucester to the Athletic Ground this afternoon for the first time for four years. Our visitors cup commitments have resulted in cancellations in the last two years, and in 1984 Gloucester won by 28-14 at Kingsholm in a game no doubt remembered by Richmond skipper Andy Hampel who registered his first try for the Club.

Other events down the road may detract from today's attendance, where this year's west country champions Cornwall take on Middlesex in the Thorn-EMI County Championship semi-final, an event in which in recent times our visitors might have been expected to show more than a casual interest. However the decision by the Gloucestershire senior clubs to put club before county on Saturdays enables us happily to entertain a full strength opposition.

### TEAM TALK

Our last victory over Gloucester was here four years ago by 24-7 in a game in which Simon Pennock scored two tries on his debut. Of that side only Pennock remains, though another, Jim Thorn, will be playing for Middlesex along with scrum half John Cullen. This enables Adam Ellery to retain his place in the front row and provides a rare opportunity for the mercurial John Wright at scrum half.

For those who made the wrong decision and went to Cardiff last week, we completed the double over Table A side London Scottish by 20-9 in a thoroughly competent manner. Andy Hampel, David Sole and John Cullen scored tries, one of which Simon Smith converted along with two penalties smashed over from around half way. All three sides defeated Scottish opposition whilst the Scots cried off against the Normans.

### UNDER 21s

Congratulations to Matt Brown's Under 21 side who finished the season unbeaten when defeating London Irish 26-6 last week. They won eight of the ten games played and Greg Caswell shared with his captain the honour of being leading try scorer with seven.

**NEXT WEEK** Tuesday 17th March — RICHMOND v EXETER UNIVERSITY, kick-off 4.30 pm.

**Skill, sound judgement  
and precise control  
of applied energy.**

Similar attributes have made Spirax Sarco the world leader among manufacturers of steam, air and water control equipment.
