Gloucester R.F.C.

Founded in 1873, Gloucester R.F.C. are enjoying one of their most successful seasons in recent years. At the time of writing they are second in Division 1 of the Courage League, and five of their players feature in the divisional side. Last August they toured Portugal in preparation for this season's campaign, taking a 43 strong squad, and playing a number of games including one against the Portuguese national side. In addition they took part in the Lisbon Sevens competition, reaching the last eight, but finally losing to the eventual winners, Cambridge University.

In recent years Gloucester have spent a substantial sum of money improving their club facilities at Kingsholm. Recent improvements include a players dining room and bar, weights room, and a hospitality room. Even more recently, in the light of the new Sports Ground Safety Act, they spent £150,000 on improvements to the stand and ground, and are now planning to provide hospitality boxes at the Canal End of the ground.

Some of the Gloucester players are no strangers to Brixham since in the last 15 years both clubs have played each other at Colts level, and the Colts County side have played many of their matches against Devon at Astley Park. In addition Brixham had the pleasure, in 1977, of playing the Gloucester First XV, but more recently the veterans of Gloucester had a very good Sunday at Astley Park when both clubs played a veterans match.
